

# Material Safety Data Sheet

According to Regulation (EC) 1907/2006 and Regulation (EC) 453/2010

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Identification of the substance/mixture:	Easy Absorb Feinkorn
CAS Number:	63800-37-3
EC number:	264-465-3
REACH Registration number:	Exempt

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

This material should only be used for industrial purposes.  
Absorbent

### 1.3. Details of the supplier of the safety data sheet

Manufacturer/Supplier:	ACME United Europe GmbH
Address:	Junkerstr. 13-15 D-42699 Solingen
Telephone:	+49(0)212-23245-0
Fax:	+49(0)212-32181
E-mail:	info@acmeunited.de
1.4. Emergency telephone number	0800-2232450

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

#### *Classification according to directives 67/548/EEC and 1999/45/EC*

Substance/mixture is not classified as dangerous according to Directive 67/548/EEC and 1999/45/EC

#### *Classification according to Regulation (EC) 1272/2008*

Substance/mixture is not classified as hazardous according to Regulation (EC) 1272/2008

### 2.2. Label Elements

#### *Labelling according to directives 67/548/EEC and 1999/45/EC*

Substance/mixture is not classified as dangerous according to Directive 67/548/EEC and 1999/45/EC

#### *Labelling according to Regulation (EC) 1272/2008*

Substance/mixture is not classified as hazardous according to Regulation (EC) 1272/2008

### 2.3. Other hazards

***Sepiolite produced by TOLSA has no carcinogenic effects as it has been demonstrated by epidemiological, in vitro and in vivo studies.***

This product may generate dust during handling and use. This product may contain contain quartz (crystalline silica). Long term overexposure to crystalline silica dust may cause silicosis.

## Material Safety Data Sheet

According to Regulation (EC) 1907/2006 and Regulation (EC) 453/2010

### SECTION 3: Composition/information on ingredients

#### 3.1. Substance/preparation

I  
This product may contain crystalline silica in quantity up to 5%.

Sepiolite is not listed as dangerous substance in the Annex I of Directive 67/548/EEC as amended, not listed in Annex VI of Regulation (EC) 1272/2008.

Sepiolite is an exemption from the obligation to register in compliance with Annex V of Regulation (EC) 1907/2006

### SECTION 4: First aid measures

#### 4.1. Description of necessary first aid measures

In case of inhalation :	Allow resting in a well-ventilated area if high concentration is inhaled and mechanical irritation or discomfort occurs. Seek medical attention if irritation persists.
In case of contact with skin :	Wash with mild soap and water and rinse with plenty of water.
IF IN EYES:	Rinse with plenty of water. Seek medical advice if irritation persists..
In case of ingestion:	Symptomatic treatment and seek medical advice in case of prolonged discomfort.
Individual protection of the person providing first aid :	No information available.

#### 4.2. Most important symptoms and effects, both acute and delayed

Most important symptoms and effects, both acute and delayed :	Mechanical Irritation.
---	------------------------

#### 4.3. Indication of any immediate medical attention and special treatment needed

Indication of any immediate medical attention and special treatment needed :	No information available.
--	---------------------------

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing Media

Suitable extinguishing media:	Water spray, carbon dioxide, dry chemical powder or appropriate foam.
Unsuitable extinguishing media:	For safety reasons do not use full water jet.

#### 5.2. Special hazards arising from the substance or mixture

Special hazards arising from the substance or mixture:	None special
--	--------------

#### 5.3. Advice for firefighters

Protective equipment and actions:	No special requirements. Do not allow spillage of fire will be poured into drains or watercourses.
-----------------------------------	---

# Material Safety Data Sheet

According to Regulation (EC) 1907/2006 and Regulation (EC) 453/2010

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

This product has no specific Occupational Exposure Limit (OEL).  
Respect regulatory provisions for dust (inhalable and respirable)

### 8.2. Exposure controls

Appropriate engineering controls :	General ventilation. Local exhaust ventilation is recommended to keep airborne dust levels below exposure limits
Individual protection measures, such as personal protective equipment :	
Eye/face protection:	Chemical safety goggles are recommended. Wash contaminated goggles before reuse.
Skin protection :	Light protective clothing recommended. Wash contaminated clothing before reuse. Avoid inhalation and contact with skin and eyes.
Hand protection:	Compatible chemical-resistant gloves are recommended. Wash contaminated gloves before reuse.
Other:	Measures should be taken to prevent materials from being splashed into the eyes or on the skin. Wear eyeslids and protective clothing.
Respiratory protection:	Use air-purifying dust respirator if airborne dust concentration is above exposure limits. In the case of brief exposure, use a device filter.
Thermal hazards :	No information available.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Appearance:	Light cream granules
Odour:	Odourless
pH :	8.5 ± 0.5.
Melting point:	1550 °C
Boiling Point :	No information available.
Flash Point:	Not applicable
Evaporation Rate :	No information available.
Flammability (solid, gas) :	No information available.
Upper/lower flammability or explosive limits :	No information available
Lower and upper explosive (flammable) limits :	No information available
Vapor pressure at 20°C :	No information available.
Vapor density :	No information available.
Relative density:	2.1
Solubility(ies) :	Insoluble in water
Partition coefficient: n-octanol/water :	No information available.
Auto-ignition temperature :	No information available.
Decomposition temperature :	No information available.
Viscosity :	No information available.

### 9.2. Other information

Other information : No information available.

## Material Safety Data Sheet

According to Regulation (EC) 1907/2006 and Regulation (EC) 453/2010

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

Reactivity : None hazardous reactions are expected

#### 10.2. Chemical stability

Chemical stability : This product is stable in normal conditions.

#### 10.3. Possibility of hazardous reactions

Possibility of hazardous reactions : None hazardous reactions are expected

#### 10.4. Conditions to Avoid

Conditions to Avoid: No special requirements.

#### 10.5. Incompatible materials

Incompatible materials: None known

#### 10.6. Hazardous decomposition products

Hazardous decomposition products: None hazardous reactions or by-products are expected

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Information on toxicological acute effects :  
 May cause eye irritation if exposed to large amounts of dust  
 Skin irritation may result from physical contact  
 Inhalation of high concentrations may cause irritation

Information on toxicological chronic effects :

***Sepiolite produced by TOLSA has no carcinogenic effects as it has been demonstrated by epidemiological, in vitro and in vivo studies.***

Sepiolite is classified by IARC as class 3 ("Cannot be classified as to carcinogenicity to humans").

This product may contain quartz (crystalline silica). In 1997, IARC concluded that the respirable fraction of crystalline silica inhaled from occupational sources can cause lung cancer in humans. However, it pointed out that not all industrial circumstances, nor all crystalline silica types, were to be incriminated (IARC Monographs, Vol 68)

In June 2003, the EU Scientific Committee on Occupational Exposure Limits (SCOEL) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis. Therefore preventing the onset of silicosis will also reduce the cancer risk...". (SCOEL SUM Doc 94-final, July 2003)

Other relevant information :

No mutagenic, teratogenic or developmental toxicity effects are known

There is body of evidence supporting the fact that increased cancer risk would be limited to people already suffering from silicosis. According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits.

## Material Safety Data Sheet

According to Regulation (EC) 1907/2006 and Regulation (EC) 453/2010

### SECTION 12: Ecological information

#### 12.1. Toxicity

Toxicity : No specific adverse effects are known  
LC50 (96h, fish) > 14000 mg/l (OECD 203)  
EC50 (96h, algae) > 300 mg/l (ISO/TC 147/SC 5WG 5 N85)

#### 12.2. Persistence and degradability

Persistence and degradability : Not biodegradable

#### 12.3. Bioaccumulative potential

Bioaccumulative potential : Not bioaccumulative

#### 12.4. Soil mobility

Soil mobility : No information available.

#### 12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment : No information available.

#### 12.6. Other adverse effects

Other adverse effects: See also Sections 6, 7, 13 and 15  
Avoid contamination of soil, groundwater and surface water.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Waste treatment containers : Dispose in a safe manner in accordance with local/national regulations.

Appropriate methods of waste treatment of both substance or mixtures : Dispose in a safe manner in accordance with local/national regulations

Appropriate methods of waste treatment of contaminated packaging : Dispose in a safe manner in accordance with local/national regulations.

Wastewater discharge : No information available.

Community/national/regional provisions relating to waste : No information available.

### SECTION 14: Transport information

#### 14.1. Land Transport (ADR/RID)

Substance/mixture is not classified as hazardous for transport

#### 14.2. Sea Transport (IMDG)

Substance/mixture is not classified as hazardous for transport

#### 14.3. Air Transport (IATA)

Substance/mixture is not classified as hazardous for transport

## Material Safety Data Sheet

According to Regulation (EC) 1907/2006 and Regulation (EC) 453/2010

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Other : No information available.

Authorisations : No information available.

Usage: : No information available.

#### 15.2. Chemical Safety Assessment

Chemical Safety Assessment : No information available.

### SECTION 16: Other information

Substance/mixture is not classified as dangerous according to Directive 67/548/EEC and 1999/45/EC

Substance/mixture is not classified as hazardous according to Regulation (EC) 1272/2008

Reason for revision: Adaptation to CLP Regulation
